Common Core ties to Libya, Qatar, Saudi Arabia

• CORE is Common Core is Florida StandardsIS.... The indoctrination of Islam K-12

- Being taught world history from Islamic perspective (Florida) that includes learning about the five pillars of Islam
- Parents in every state are outraged, protesting and asking, "Why is Islam being taught in public schools?" and "How did this happen?"
- "Where is the ACLU?"
- "Where are the people 'protesting against' religion being taught in public schools?"
- Common Core is but one of many parts of an intricate plan to infiltrate every area of American society with Islam.
- Common Core's origin and funding came from Qatar, Libya and Saudi Arabia.
- Globally, Common Core originated from the "One World Education" concept, a global goal orchestrated by the Connect All Schools program.
- Its origin is funded by the Qatar Foundation International (QFI).
- The director of QFI's Research Center for Islamic Legislation and Ethics is Tariq Ramadan, grandson of Muslim Brotherhood founder, Hassan al-Banna.
- (SCHOOL CHOICE)... According to the WND website, in 2011, QFI "partnered with the Department of State and the U.S. Department of Education to facilitate matchmaking between classrooms in the U.S. and international schools through ... the 'Connect All Schools' project." QFI states on its website that the initiative was founded in response to Mr. Obama's infamous 2009 Cairo speech, during which the Muslim Brotherhood was seated in the front row.
- Mr. Obama's mentor, domestic terrorist Bill Ayers, received \$49.2 million from Vartan Gregorian, a board member of the Qatar Foundation, who also is involved with Mr. Obama's White House Fellowships Commission. Gregorian is an integral part of Connect All Schools, through which Qatar invested \$5 million to teach Arabic in American public schools.
- (Why is Hillsborough County ALLOWING this?) Domestically, in America, Common Core was "created by" the National Governor's Association (NGA), Council of Chief State School Officers (CCSSO), Achieve Inc., ACT and the College Board. The Common Core State Standards are copyrighted by the NGA and CCSSO, a private company, which means they cannot be changed.

- (Hillsborough County Schools took money from the Gates Foundation GIVE IT BACK!) Many groups helped create these standards (chief among them, the Bill and Melinda Gates Foundation and the United Nations) but Pearson Education, an NGA donor and CCSSO's listed business and industry partner, is integral to Common Core.
- (Hillsborough County STOP TESTING OUR CHILDREN putting profits in corporations bank accounts using OUR children to PROFIT their bottom line.) Pearson Education designs "education products and services to institutions, governments and direct to individual learners." Listed on the London and New York Stock Exchange, of its numerous investors, the Libyan Investment Authority is its largest financial contributor, holding 26 million shares.
- Common Core was implemented in states that accepted federal funds from the 2009 "Race to the Top" initiative, which encouraged states to receive federal money to adopt new standards that would improve their public school children's test performance results.
- (Hillsborough County REVOKE Common Core) In order for a state to participate, the state board of education and the state's educational professional standards board would have voted to adopt Common Core standards. Each participating state has posted the Common Core Standards on its state department of education website.
- **(ISLAMIC INDOCTRINATION)** Two years prior to the Obama administration's Race to the Top initiative, in 2007, the FBI uncovered documents revealing the goals of the Muslim Brotherhood, and its subsidiary organizations like CAIR, planned to **indoctrinate American K-12 students by teaching Islam.**
- The seized documents were part of the 2007 Holy Land Foundation trial, the largest terror-funding trial in U.S. history. The FBI uncovered the Muslim Brotherhood's manifesto "on the General Strategic Goal for the Group in North America" (Exhibit 42945 and Exhibit 42946).
- NO state or federal oversight exists for university programs (under Title VI of the Higher Education Act) that train K-12 teachers to develop lesson plans and seminars on "Middle East Studies." These programs and teacher training materials were developed by Pearson Education and largely funded by Saudi Arabia.

Parents must and can act - In order to end Common Core and eliminate the Islamic indoctrination being taught in public schools, parents must demand:

- Their state school board members be investigated and/or fired and replaced.
- Their state legislature and governor reject "Race to the top" federal funds and implement legislation or reverse its state education department's implementation of Common Core in their state, and at a minimum, in the interim.
- Their child not participate in state testing.
- Parents can also take their children out of public schools altogether.
- **Parental rights are guaranteed by the 14th Amendment. The U.S. Supreme Court has held that parents possess the "fundamental right" to "direct the upbringing and education of their children." The court has declared that "the child is not the mere creature of the State: those who nurture him and direct his destiny have the right coupled with the high duty to recognize and prepare him for additional obligations" (Pierce v. Society of Sisters, 268 U.S. 510, 534-35). The Supreme Court criticized the Nebraska state legislature for attempting to interfere "with the power of parents to control the education of their own" (Meyer v. Nebraska, 262 U.S. 390, 402). And ruled a parent's right to raise his/her children means a parent is protected from unreasonable state**

interferences, one of the unwritten “liberties” protected by the Due Process Clause of the 14th Amendment (Meyer v. Nebraska, 262 U.S. 399).”

- Parents must say no more: The \$632 billion the federal government spends each year on public school “education” is being wasted on violating the First Amendment, by the federal government instituting a religion through the teaching of **Islam** in public schools.

!!!! NO MORE TESTING !!!! - 3rd Graders Under Attacked! There stealing OUR CHILDREN

Dr. Alison Rampersad <http://corecougars.weebly.com/dr-alison-rampersad.html> addressed FL Palm Beach County School Board with this speech: http://corecougars.weebly.com/uploads/2/6/8/7/26873063/school_board_speech_9-17-2014.pdf

From Dr. Rampersad speech (2014-2015 School Year) and quote:

State law HB7009 specifically requires that “full implementation of online assessments for Next Generation Sunshine State Standards (a/k/a CORE a/k/a Common Core a/k/a Florida Standards) in English/language arts and mathematics for all K-12 public school students **occur only after the technology infrastructure, connectivity, and capacity of all public schools and school districts have been load-tested and independently verified as ready for successful deployment and implementation.**”

You all know that.....right? And you’re aware that in April of this year (referring to 2015), at least a dozen Florida school districts were forced to suspend online testing because students had trouble signing in to take the annual exam? **If you do not adhere to HB7009, you all are liable for disobeying the law and endangering the school districts with legal liability.**

Speaking of violating the law.....**where in the U.S. Constitution does it state that the federal government has any jurisdiction over education? If doesn’t. Therefore.....any federal intervention in local FL education violates the Constitution.....and is not a law at all. That makes Common Core “voidable” and the WHOLE takeover of education, LAWLESS.**

FL Last school year 2014-2015 Florida marked the FSA Invalid due to load testing issues.

For the FL 2015-2016 where there any FSA testing issues? Look at this gem of a graphic attached and here is the actual .pdf <http://www.mynews13.com/content/dam/news/images/2016/02/04/seminole-county-schools-fsa-testing-report-021116.pdf>

For the FL 2015-2016 School Year Why isn't the FSA testing be marked INVALID again?

If HB7009 and as Dr. Rampersad pointed out helped the 2014-2015 school year why can her speech be used to help the 2015-2016 school year to get the FSA marked INVALID again?

Refer to this research by others where it together to make a point and back up Dr. Rampersad.... <http://optoutflorida.weebly.com/hb-7009-education.html>
